Recycling & Best practice

Rojo Pacific has a Company commitment to Corporate Social Responsibility. How we implement this is through product stewardship, best practice purchasing to meet Australian standards, bringing alternative and reduced environmental impact products to our clients.

Product stewardship meets the needs of a changing world in where we work to address economic, social, environmental and cultural impacts of our business on the community.

One way we achieve best practice is setting targets. Since 2009 Rojo become the first, Large Format Industry member of the Australian Vinyl Council's PVC Product Stewardship Program. Innovation includes sourcing eco-responsive large format solutions and products including media alternatives, inks and printers to meet client demand.
