

Soft Stone Sculptures

A truly unique new team building activity

- *Looking for something different to motivate your staff*
- *Looking for something that is really fun and relaxing*
- *Looking for a really creative activity*
- *Looking for something where participants get to learn a new skill AND take home a lasting reminder of your event*

Soft Stone Sculptures does all of the above and more

What it's about...

Soft Stone Sculptures is a new form of sculpting that is easy, rewarding and very enjoyable.

The sculptures that are created can be used indoors or in the garden and will last a lifetime.

Great team building activity...

This can be a really productive way to bring a team together. If you are running a conference this is a fascinating way to provide your participants with some time out in an inspiring, creative and fun group atmosphere.

We work closely with you from the outset and structure the activity to ensure the right message is delivered.

Anyone can do it...

The great thing about this is that you don't need any prior artistic or sculpting experience. This is also a very non-threatening activity.

Don't worry if some of your participants may be "artistically challenged" and have little or no artistic talent - we provide guidance every step of the way and have lots of ideas to inspire.

Everyone creates a sculpture...

During this experience all participants get to design, make and take home their very own sculpture (approx 40cm tall).

The sculptures last forever – what better way to create a permanent reminder of your event.

We're mobile...

We can set up this event just about anywhere. There is no need to come to us. We would be happy to discuss the options available.

It takes less than a day...

We can structure this experience to fit into either a full day or an afternoon. We are very flexible and happy to work within your timetable.

What you get...

We pack a lot into this session. We will give your participants all the information they need to know to design and create their own sculptures. We have lots of sculpting ideas and make sure nobody feels left out or intimidated.

It is very cost effective...

Compared with other activities really is a cost-effective alternative. If you are running a conference this can be a very small part of the overall conference cost.
