

# Sustainability: One Step at a Time

A photograph of a person standing on a dark metal bridge railing, looking out over a bright blue sky filled with large, white, fluffy clouds. The perspective is from below, looking up at the sky.

# Noxious weeds

Tansy ragwort (*Senecio jacobaea*)

Japanese knotweed (*Polygonum cuspidatum*)

# Beyond Insecticides and Fungicides

## *Integrated Pest Management (IPM)*

- Fostering Diversity
  - ✓ Soil building and soil food web diversity
  - ✓ Habitat diversity
  - ✓ Insect and bird diversity
- Tolerance
- Cultural practices
- Least toxic pesticides

# Water Conservation

- Most of our predominantly native or drought tolerant plantings have been weaned off irrigation altogether.
- The majority of our lawn areas no longer receive irrigation.
- Develop beds containing plants with similar water needs.
- Soil building
- Maxicom Central Control System connects our irrigation system to a weather station and adjusts water use daily based on:
  - solar radiation
  - humidity
  - temperature
  - wind run
  - precipitation

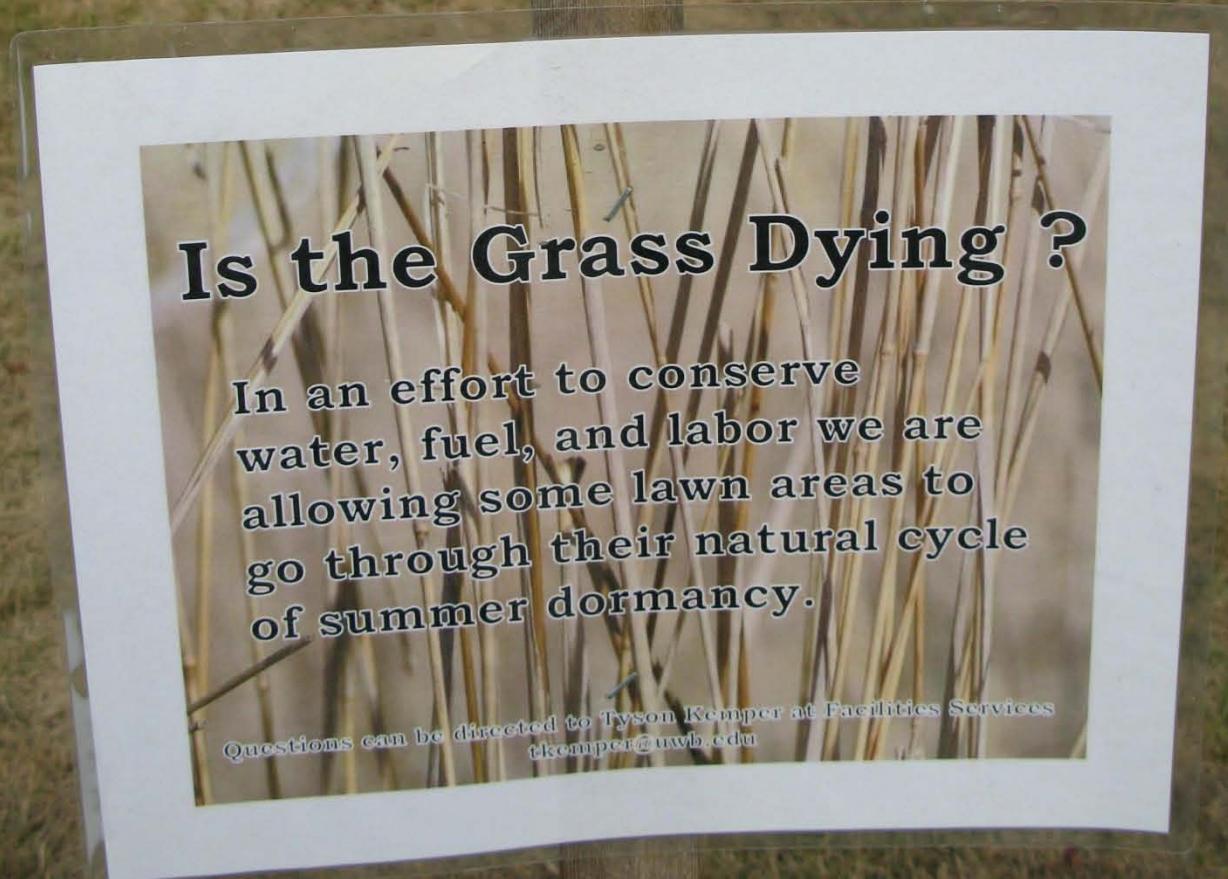

# Is the Grass Dying ?

In an effort to conserve  
water, fuel, and labor we are  
allowing some lawn areas to  
go through their natural cycle  
of summer dormancy.

## NATIVE PLANT BED

Selectively weeded to encourage native species

Native plants growing freely in this bed:

Douglas-fir	( <i>Pseudotsuga menziesii</i> )	Red-flowering currant*	( <i>Ribes sanguineum</i> )
Bigleaf maple	( <i>Acer macrophyllum</i> )	Mock-orange*	( <i>Philadelphus lewisii</i> )
Vine maple	( <i>Acer circinatum</i> )	Tall Oregon-grape*	( <i>Mahonia aquifolium</i> )
Evergreen huckleberry*	( <i>Vaccinium ovatum</i> )	Salal	( <i>Gaultheria shallon</i> )
Twinberry*	( <i>Lonicera involucrata</i> )	Fireweed	( <i>Epilobium angustifolium</i> )
Snowberry*	( <i>Symphoricarpos albus</i> )	Watson's willow weed	( <i>Epilobium watsonii</i> )
Oceanspray*	( <i>Holodiscus discolor</i> )	Common horsetail	( <i>Equisetum arvense</i> )
Serviceberry*	( <i>Amelanchier alnifolia</i> )	Giant horsetail	( <i>Equisetum telmateia</i> )
Black hawthorn*	( <i>Crataegus douglasii</i> )	Pacific blackberry	( <i>Rubus ursinus</i> )
Pacific ninebark*	( <i>Physocarpus capitatus</i> )		

\*Species planted by IMAGINE campers on August 6, 2008. Thank you!
