

INTRODUCING THE TXT 48

The new E-Z-GO® TXT 48 is a golf vehicle that combines proven reliability with the industry's latest innovations to deliver a consistently smoother ride and greater energy efficiency. Featuring a 48-volt electric drivetrain and TruCourse Technology, the TXT 48 offers the perfect balance of performance and efficiency to your course.

EXCELLENCE IN MOTION

A Textron Company

TXT 48

THE PERFECT COMBINATION OF LEGENDARY VALUE
AND GROUNDBREAKING PERFORMANCE.

Recently, E-Z-GO® revolutionized the industry with the innovative RXV.™ Now we're applying our technological leadership to the next generation of our classic TXT golf car—the TXT 48. New TruCourse Technology enables golf course operators to customize the TXT 48's performance characteristics to the unique topography and terrain of their course. A 48-volt DC drivetrain allows for longer daily range, enhanced battery life and better, more consistent performance from the first hole of the day to the last. And it retains the classic styling and customer-pleasing features of the proven E-Z-GO TXT.

• New TruCourse Technology

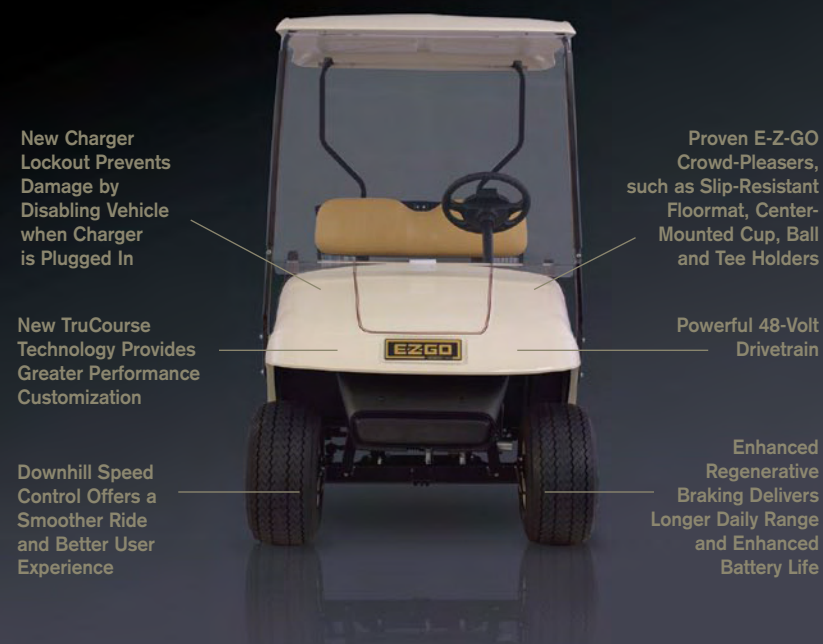

- Greater flexibility to customize vehicle performance to your course topography, resulting in a smoother ride across the most demanding terrain
- 10% greater energy efficiency over the 36-volt model
- 48-volt DC drivetrain offers larger battery capacity for longer daily range with more power and hill-climbing ability over any terrain
- 10% greater regenerative braking maintains performance across more rounds
- New, optional handheld diagnostics allow for more precise customization of vehicle performance, improved fleet rotation and simplified vehicle maintenance
- Downhill speed control offers a smooth, comfortable and secure ride over the most challenging hills and course topography
- Enhanced battery life backed by a longer 4-year warranty

• Engineered with a Commitment to Green

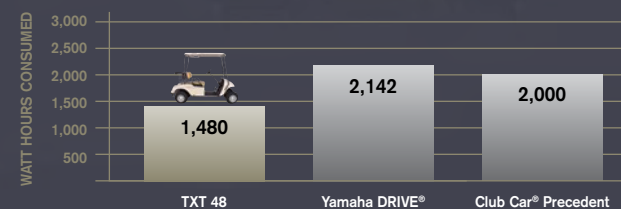

- Features the new, energy-efficient TruCourse Technology
- Foam seating made of 100% recycled materials and repairable seat components minimize landfill usage
- Recyclable plastic components
- Manufactured in ISO 14001-certified facility

- Utilizes Similar Platform to Classic TXT

- Features the classic elegance of the E-Z-GO TXT model
- Powder-coated, tubular steel frame and automotive body panels offer proven reliability and durability
- Features such as slip-resistant floormats, center-mounted cup, ball and tee holders, double-walled canopy and handle, and walk-away braking alarm offer golfers a premier user experience
- PowerWise™ QE charger offers better energy efficiency, reduced charge times and user-friendly LED indicators and diagnostics for streamlined maintenance

BEST-IN-CLASS DC ENERGY EFFICIENCY

Note: The lower the bar, the less watt hours used, resulting in greater energy efficiency.
